

View Project Board

Context:

- Any logged-in user (Admin, Manager, or Employee) wants to view the board associated with a project.

Primary Flow:

1. User navigates to a specific project's Board page.
2. System loads and displays the project board.
 - Columns represent task statuses or categories (e.g., To Do, In Progress, Done).
 - Cards represent individual tasks within each column.
3. User clicks a card to view task details.

Alternative Flows:

- **Project board has no columns or tasks yet:**
 - A1. System displays an empty state message (e.g., "No tasks added to this board yet.")
- **User is not assigned to the project:**
 - A1. System denies access and redirects with an error message.
