

## **Filter Projects by Assigned Group**

### **Context:**

- **A Manager wants to filter projects based on assigned groups.**

### **Primary Flow:**

- 1. Manager navigates to Project Management.**
- 2. Selects a group from the filter dropdown.**
- 3. Clicks "Filter".**
- 4. System displays only projects assigned to the selected group.**

### **Alternative Flows:**

- **No projects match the selected group:**
  - **A1. System displays "No projects found for the selected group."**
- **Manager clears the filter:**
  - **A1. System resets the project list to show all projects.**
