Move Ticket to Another Stage

Actor: Any user with board access

Description: User drags or moves a ticket to another stage (column).

Primary Flow:

1. **User clicks ellipse dropdown menu**

2. **User Clicks "Move Ticket To"**

3. **User Clicks on a Stage that is available**

4. **System checks if the ticket's assignee is still eligible for the target stage based on group membership.**

   o **If not, the system unassigns the ticket.**

5. **System updates the ticket's stage and logs the change:**

   o **Example:**

      ▪ **"Ozzie Albies moved the ticket from To Do to In Progress at 4/14/2025 12:20 PM"**

      ▪ **"Ozzie Albies updated the Assignee to 'Unassigned' at 4/14/2025 12:20 PM"**

6. **System stores the update and returns to the updated board view.**
