Create a New Group

Context:

- **Admins or Managers can create groups for task assignments.**

Primary Flow:

1. **Admin/Manager navigates to Group Management.**

2. **Clicks "Create Group".**

3. **System asks for:**

   o **Group Name**

   o **Assigned Manager(s)**

   o **Employees assigned to this group**

4. **Admin/Manager submits the form.**

5. **System stores the group.**

Alternative Flows:

- **Admin/Manager forgets to name the group:**

   o **A1. System prevents submission and requests a group name.**
